

## Presentation

The workshop **Topics in Invariant random subgroups (Autour des sous-groupes aléatoires invariants)** is organised with the support of the [ANR AGIRA](#). The goal is to gather a small group to discuss a few specific research topics and hopefully make, or at least initiate, further progress on open questions in those, as well as giving an overview of the state of the art for all participants.

## Schedule

### Speakers for the lectures

- [Invariant random subgroups and Nevo--Stück--Zimmer theorem \(NSZ\)](#):

1. Lecture 1: Jean L.
2. Lecture 2: Jean R.
3. Lectures 3,4,5: Arie?

- [The Neretin group, its lattices and invariant random subgroups \(Neretin\)](#):

## Information

The workshop will take place in the Lazaret in Sète, from May 14th to 18th.

To get to the Lazaret from Sète train station you can take the bus: in front of the train station take the line 3 ([timetable](#)) from **Gare SNCF** (the bus departs in front of the building) to **Plan de la Corniche**, then walk along the **Rue du pasteur Lucien Benoît** until you arrive at the Lazaret ([map](#)).
